

Solutions to improve your CSR performance

Who are we ?

A specialized advisory firm

Based on the experience and the pragmatic approach of advisory of its founders, two well-known advisory firms, Sustainable Metrics, directed by Jean-Baptiste Cottenceau, aims to provide key guidance to businesses in :

- Identifying key issues in terms of **Corporate social responsibility**
- Enabling **CSR performance monitoring** through the establishment of Key Performance Indicators (KPI's)

Founded on a strong partnership with two major actors in their business

HAF Audit et Conseil

HAF Audit et Conseil is a recognised firm in accounting and audit, corporate finance, valuation. It is a member of Crowe Horwath international and it was the founder of Crowe Horwath France.

Carbone 4

Founded by Jean-Marc Jancovici and Alain Grandjean, Carbone 4 is an advisory firm dedicated to energy and carbon footprints competing with large corporations.

The executive committee expertise

Jean-Baptiste COTTENCEAU Founding partner and managing director

Convinced that the global performance only comes through joining concrete commitment and efficient indicators, he has a look on the sense and the utility of extra-financial reporting. He is now in charge to develop Sustainable Metrics services.

Certified accountant, Jean-Baptiste has begun his career in an accounting and audit firm during 7 years.. He then played a key role in the creation and the growth of Carbone 4 as a manager from 2008 to 2015 where he perfected his skills in terms of consulting in energetic and climate change strategies for large firms. In 2015, he founded Sustainable Metrics.
